

## **Basic Maintenance Agreement**

### **Gatekeeper Systems**

One of the keys to keeping sensitive electronic equipment functioning reliably in a dusty, jarring environment is performing basic maintenance on a regular basis. A Basic Maintenance Agreement from Teerman's Commercial Electronics helps assure that your on-bus video systems will continue to perform properly and have the longest service life possible. Offered on an annual or semi-annual basis, trained personnel will:

- **Clean front panel ports and vents**
- **Tighten all system mounting screws**
- **Test all cameras**
- **Check infrared illuminator (if installed)**
- **Test basic video system functions**

Cost of Service Contract is \$65.00 per system (plus mileage to bus location)

For more information or to schedule your bus video systems for service, contact Lee Teerman at (616) 283-2977.
